

KastlePresence App

The KastlePresence App can automatically open the turnstile by simply scanning your phone on the reader. Hold your phone 1-3 inches from the turnstile reader to engage. Be sure your phone's Bluetooth is turned on, hands-free access enabled and the app is running in the background or foreground.

- 1 Go to the app store (iPhone or android), search "Kastle Presence", and download the app.
- 2 Enter your individual company email address & cell phone number (and continue).
- 3 A temporary pin code will be emailed to you from DoNotReply@kastle.com (PIN only valid for 15 min).
- 4 Enter the temporary PIN in the app, then make a new, personal PIN and click Register.
- 5 Before using the first time or after any software upgrades, go into the App Settings and click the refresh symbol.
- 6 In the App Settings, go to Advanced Settings and make sure "Hands-Free Access enabled" is toggled on.
